Thank you, you as well! As a heads up I will be on PTO tomorrow and Friday, but I will review the Flock Safety encroachment resubmittals next week when I get back.

Thank you for the clarification. We are working to get this updated and I will resubmit in the portal once completed.

Have a good day

Good Afternoon,

During the review process for the initial post approval (with one camera attachment), Geotech

requested the note below to be added to the typical detail.

The typical detail for a post with 2 cameras attached is missing this note. Since this encroachment has posts with one camera and posts with two cameras, please upload typical sheets for one camera and 2 camera posts, with the note above added to the 2-camera detail. Please let me know if you have further questions.

Thank you,

Good Afternoon,

I hope you’re well. I’d like to request clarification on the requirement:

“Please make sure this drawing has incorporated Geotech’s revisions (e.g. soil parameters).”

As this is a new expectation on my end, I want to ensure we fully understand what’s needed and deliver precisely as requested.

Good Afternoon Aly,

Shelby informed me that you would be taking over the encroachments for her as of today. I have put together a list of the status of my encroachments I have been working with Shelby on to this point to help with the transition. I know there are other flock safety encroachments under review by my coworkers, and they can help you with those.

E033-065-25-00128 – Status: Applicant
